

DIVI notes

In random order, I'll be added more from time to time.

Tables – good for officers

Go to Tablepress (dashboard) and create a new table, name it

Then go to a page, add a section, add text module and open to edit

There will be an icon to insert tablepress, click and choose the table you want. Be careful not to choose the table icon, use the tablepress icon.

Then you can highlight the link and change the text size, color, etc.

People boxes with photo, name and title

Create a section and choose number of columns

Add the people module and fill in the information

Sections

Standard (choose number of columns)

Speciality (preset columns and photos)

Full width

View on mobile devices Divi, theme customizer, mobile styles then you can change the text size, etc for each tablet, phone, computer.

Navigation menu Full with section, full width menu has the navigation (page links)
